# CORPORATE PROFILE

**BE SWITCHCRAFT**

**BE Switchcraft Pty Ltd offers vast experience in the design, manufacture and testing of “Low Voltage” switchgear and control gear assemblies.**

The Company can accommodate standard product manufacture and custom-built products.

Low voltage switchgear and control gear assemblies are designed and manufactured to AS3439 using high quality components.

**The Company’s products are in service in:**

- Schools / Universities
- Shopping Centres
- Commercial Developments
- Industrial applications
- Hospitals
- Sporting Stadiums

In most states of Australia and the Pacific region.

The Company provides a complete service from initial concept, through design and manufacture, employing it’s qualified multi-skilled tradespersons in sheetmetal / painting / electrical fields.

All products are subject to quality assurance testing procedures during manufacture and on completion.

**The services we provide include the following:-**

1. Electrical switchboard manufacturing
2. Design and drafting consultancy
3. Temporary power switchboards
4. Sheetmetal fabricated products and surface coating services

## COMPANY VISION

**BE SWITCHCRAFT**

It is the policy of BE Switchcraft to continually satisfy the expectations of customers from inception, through design and development, production and testing of their product.

The Company's success can be attributed to the sound reputation established in high quality, reliable products and service, and reflects the dedicated attributes of its employees.

The Company is committed to the principles of continuous improvement for all products and services provided.

In February 1995 the Company gained recognition in its pursuit fo excellence and quality by being certified to the Quality Endorsed Company Scheme.

### **AS/NZS ISO 9001:2008**

**“Quality Systems – Model for Quality Assurance in Design, Development, Production, Installation and Servicing”.**

# QUALITY POLICY

**BE SWITCHCRAFT PTY LTD specialises in the design, manufacture and marketing of standard and custom built “low voltage switchgear and control gear assemblies”.**

It is the policy of BE SWITCHCRAFT PTY LTD to continually satisfy the quality standards and expectations of customers from the design and development stage, through production and commissioning of the product. Quality also extends to all support services from initial customer contact, through to dispatch and after sales service during the warranty period.

The Company’s success can be attributed to the sound reputation established in supplying high quality, reliable products and service, and reflects the dedicated attitude of its employees.

To maintain this success, BE SWITCHCRAFT PTY LTD is committed to the principle of continuous improvement for all products and services provided.

In support of this principle the company has developed and implemented a Quality System which complies with the requirements of the Australian/International Standard.

## **AS/NZS ISO 9001:2008**

“QUALITY SYSTEMS – MODEL FOR QUALITY ASSURANCE IN DESIGN, DEVELOPMENT, PRODUCTION, INSTALLATION & SERVICING”.

Managers and Supervisors have the responsibility that all staff are adequately trained to capably perform their function within the Company.

It is the responsibility of all BE SWITCHCRAFT PTY LTD employees to carry out their defined roles and maintain the quality standards of their own work.

It is the responsibility of the Quality Manager and Directors to ensure adequate resources are provided to effectively implement and maintain the Quality System that had been developed, and to ensure this Quality Policy is fully understood by all employees.
